The graph is a directed graph with 20 red nodes and black edges. The nodes are arranged in a long linear chain of 18 nodes, with a cycle of 2 nodes attached to the 18th node. The edges are directed from node 1 to 2, 2 to 3, ..., 17 to 18, and 18 to 19 and 19 to 18.

The graph consists of 15 red nodes and black directed edges. The structure is as follows:

- Top-left path:** A sequence of 6 nodes connected by directed edges pointing towards the top-left.
- Bottom-left path:** A sequence of 6 nodes connected by directed edges pointing towards the bottom-left.
- Central cluster:** A group of 5 nodes forming a complex, interconnected structure with multiple directed edges between them.
- Top-right path:** A sequence of 4 nodes connected by directed edges pointing towards the top-right.
